## A) REVISED TIMELINES

To allow bidders more time to work on their proposals, we have the changes tabulated below. Please take note.

| Milestone   | Date  | Remark                            |
|---|---|-----------------------------------|
| Request for Proposal publication date   | 21 March 2022                               | No Change                         |
| Closing date for receipt of requests for clarification (round 1)                              | 4 April 2022                                | No change                         |
| RFP clinic. Registration link:<br><a href="https://bit.ly/3CKbxLY">https://bit.ly/3CKbxLY</a> | 7 April 2022 13:00 CEST                     | No change                         |
| Send-out and publication of final clarifications (round 1)                                    | 11 April 2022                               | No change                         |
| Closing date for receipt of requests for clarification (round 2)                              | 25 April 2022                               | New                               |
| Send-out and publication of final clarifications (round 2)                                    | 27 April 2022                               | New                               |
| Closing date for receipt of completed proposals   | 22 April 2022 23:59 CEST                    | Changed to 13 May 2022 23:59 CEST |
| Tender Opening  | 25 April 2022                               | Changed to 16 May 2022            |
| Result notification, contract negotiation and conclusion (indicative date)                    | 2 May 2022                                  | Changed to 23 May 2022            |
| Assignment commencement (indicative date)   | <del>By 9 May 2022 (Contract signing)</del> | By 1 June 2022 (contract signing) |

**Please note that the rest of the Tender Information remains the same.**

## **B) ORIGINAL ADVERTS AND DATES:**

### **1 REQUEST FOR PROPOSALS – CIVIL ENGINEERING SITE SURVEY AND REHABILITATION TECHNICAL PLANS FOR THE NATIONAL GENE BANKS OF KENYA, ZAMBIA AND NIGERIA**

The Capitalization of the Endowment Fund of the Global Crop Diversity Trust and Strengthening of National Seedbanks (“Seeds for Resilience”) Project aims to empower national seed collections, by safeguarding them in perpetuity through and Endowment Fund, documenting and managing them appropriately for conservation and use, and promoting their use, as a basis for climate adaptation of vulnerable African cropping systems.

A civil engineer service proposals are sought to conduct a site survey and provide rehabilitation technical plans, bills of quantities (BOQs), technical specifications and schematic drawings for rehabilitating and renovating the facilities, rooms, equipment and services, in the following areas:

1. Kenya: Structural assessment
2. Zambia: Structural assessment
3. Nigeria: Structural assessment

The project is supported by the Federal Republic of Germany through KfW and is conducted in Ethiopia, Kenya, Zambia, Ghana and Nigeria.

The proposal submitted by a vendor should comprise all the information requested. Only offers that deliver all activities will be accepted, partial offers will be rejected.

Interested applicants are requested to submit their proposals no later than **23:59 CEST on 22 April 2022**. Proposals must be sent via email to Alexander Kambili, [procurement@croptrust.org](mailto:procurement@croptrust.org). Submission of proposals to any other address will not be accepted.

### **2 REQUEST FOR PROPOSALS – MECHANICAL, ELECTRICAL AND PLUMBING (MEP) ENGINEERING SITE SURVEY AND**

## **REHABILITATION TECHNICAL PLANS FOR THE NATIONAL GENE BANKS OF ETHIOPIA, KENYA, ZAMBIA AND NIGERIA**

The Capitalization of the Endowment Fund of the Global Crop Diversity Trust and Strengthening of National Seedbanks (“Seeds for Resilience”) Project aims to empower national seed collections, by safeguarding them in perpetuity through and Endowment Fund, documenting and managing them appropriately for conservation and use, and promoting their use, as a basis for climate adaptation of vulnerable African cropping systems.

Mechanical, electrical and plumbing (MEP) engineer service proposals are sought to conduct a site survey and provide rehabilitation technical plans, bills of quantities (BOQs), technical specifications and schematic drawings for rehabilitating and renovating the facilities, rooms, equipment and services, in the following areas:

1. Ethiopia: Refrigeration and air-conditioning assessment, and energy audit and alternative power sources assessment
2. Kenya: Generator and alternative power source assessment, and refrigeration and air-conditioning assessment
3. Zambia: Generator and alternative power assessment, adequation of genebank rooms and refrigeration and air-conditioning assessment
4. Nigeria: Generator and alternative power assessment, adequation of genebank rooms and refrigeration and air-conditioning assessment

The project is supported by the Federal Republic of Germany through KfW and is conducted in Ethiopia, Kenya, Zambia, Ghana and Nigeria.

The proposal submitted by a vendor should comprise all the information requested. Only offers that deliver all activities will be accepted, partial offers will be rejected.

Interested applicants are requested to submit their proposals no later than **23:59 CEST on 22 April 2022**. Proposals must be sent via email to Alexander Kambili, [procurement@croptrust.org](mailto:procurement@croptrust.org). Submission of proposals to any other address will not be accepted.

### **3 REQUEST FOR PROPOSALS – FIRE AND SAFETY ENGINEERING SITE SURVEY AND REHABILITATION**

## **TECHNICAL PLANS FOR THE NATIONAL GENE BANKS OF ETHIOPIA, KENYA, ZAMBIA AND NIGERIA**

The Capitalization of the Endowment Fund of the Global Crop Diversity Trust and Strengthening of National Seedbanks (“Seeds for Resilience”) Project aims to empower national seed collections, by safeguarding them in perpetuity through and Endowment Fund, documenting and managing them appropriately for conservation and use, and promoting their use, as a basis for climate adaptation of vulnerable African cropping systems.

Fire and safety engineering service proposals are sought to conduct a site survey and provide rehabilitation technical plans, bills of quantities (BOQs), technical specifications and schematic drawings for rehabilitating and renovating the facilities, rooms, equipment and services, in the following areas:

1. Ethiopia: Fire alarm, maintenance, and risk management assessment
2. Kenya: Building and staff security. Fire alarm, maintenance, and risk management assessment
3. Zambia: Building and staff security. Fire alarm, maintenance, and risk management assessment
4. Nigeria: Fire alarm, maintenance, and risk management assessment

The project is supported by the Federal Republic of Germany through KfW and is conducted in Ethiopia, Kenya, Zambia, Ghana and Nigeria.

The proposal submitted by a vendor should comprise all the information requested. Only offers that deliver all activities will be accepted, partial offers will be rejected.

Interested applicants are requested to submit their proposals no later than **23:59 CEST on 22 April 2022**. Proposals must be sent via email to Alexander Kambili, [procurement@croptrust.org](mailto:procurement@croptrust.org). Submission of proposals to any other address will not be accepted.
